

>> cant be

like a man without eyes
like a man free from lies
searching for a higher truth
but nobody is gonna look at you
you can't be
you can't be ...free
like a man without a voice
you have to serve, you've got no choice
like a dirty dog, you creep away
you never think about the words you're
saying
you can't be
you can't be ...free
look at me
if you want to be free
imitate me
be courageous, one time in life
don't think about it, just take your knife
guide your blade through the young girls
skin
she has to bleed for your suffering
you want to make yourself finally free
but you're still alive, you can't be
